## About me

I am an experienced software engineer specializing in full stack web development, with a strong track record of delivering responsive websites and robust applications across diverse industries, including healthcare, finance, and travel. With over two years of hands-on experience, I have honed my skills in creating impactful digital solutions during my tenure at a leading tech agency. I am currently seeking opportunities to contribute to exciting projects and assist businesses in achieving their technology goals through innovative and efficient technological solutions.

## Working Experience

### Onenex

Full Stack Developer ( Full-time )

June 2024 - Present

Myanmar (Remote)

- Collaborate with cross-functional teams to define, design, and ship new features.
- Participate in code reviews to ensure high-quality code and adherence to best practices.
- Contribute to the continuous improvement of development processes and methodologies.
- Stay updated with the latest industry trends and technologies to ensure the team leverages the best tools and methodologies.

### Onenex

Junior Full Stack Developer ( Full-time )

Oct 2022 - May 2024

Myanmar (Onsite)

- Write efficient backend code and design domain-driven architectures.
- Debug and fix issues in existing projects promptly.
- Develop full-stack web applications.

## Onenex

July 2022 - Sep 2022

Internship Web Developer

Myanmar (Onsite)

- Completed a dynamic internship in web development, honing skills in frontend and backend technologies.
- Assisted in the development of responsive web applications, gaining proficiency in HTML, CSS, and JavaScript.
- Contributed to backend development tasks using languages like Python, Node.js, or PHP, and frameworks such as Django, Express.js, or Laravel.
- Collaborated with senior developers to implement features and resolve bugs in various projects.
- Demonstrated adaptability by quickly learning and applying new technologies and tools as needed.
- Acquired practical experience in version control systems like Git and collaborative development workflows.
- Engaged in problem-solving and troubleshooting activities to ensure smooth project execution.
- Supported the team in optimizing website performance and enhancing user experience through responsive design and efficient coding practices.

## Freelance
